

**OFFICE FOR VICTIMS OF CRIME**  
**VICTIM COMPENSATION FORMULA GRANT PROGRAM**  
**PERFORMANCE MEASURES**

As mandated under the Government Performance and Results Act of 1993 (GPRA), the Office for Victims of Crime (OVC) is required to establish strategic planning, performance planning, and reporting as a framework to communicate progress in achieving its mission. GPRA serves as a foundation for helping Federal agencies to focus on their highest priorities and create a culture where data and empirical evidence play a greater role in policy, budget, and management decisions. This is achieved through the use of a performance measurement framework.

Overall, performance measurement is concerned with collecting information to determine whether a program achieved its goals and objectives. Information from performance indicators is used to improve the operation of the program. These indicators are not used to “evaluate” programs but to understand the progress that programs achieve on the state and national level toward meeting program objectives and the agency’s mission.

OVC’s intent is to use performance indicators to understand the trends and changes grantees experience over time. With this practical understanding, OVC is better able to meet the requests of Congress, the Office of Justice Programs, the Department of Justice, the Office of Management and Budget, and other stakeholders and to offer insight into programmatic and policy considerations.

The following pages outline general questions and performance indicators for OVC’s Victims of Crime Act (VOCA) Victim Compensation Formula Grant Program. The performance measures indicate the progress that grant activities have accomplished to meet OVC’s mission to assist crime victims and the following objectives:

- Grant awards to support state crime victim compensation programs; and
- Grant funds to help pay for some of the expenses resulting from crimes involving violence or abuse.

The Victim Compensation program performance measures are reported in two formats—quantitative (numeric) and qualitative (narrative responses). This data must be entered in the OVC Performance Measurement Tool (PMT) at <https://ovcpmt.ojp.gov>. The quantitative data are reported quarterly or every 3 months, and the qualitative data are entered annually. In December of each calendar year, grantees must create an annual report from the PMT to upload into the Grants Management System (GMS). During the nonsubmission periods, grantees are encouraged to create a report from the PMT for their own records.

Data entry and reporting in the PMT on the following measures began **March 1, 2015**, for grant activity that occurred since October 1, 2014. Thereafter, data should be entered quarterly (October–December, January–March, etc.). The deadline for submitting data is 45 days after the close of the reporting period.

If you have questions about your program, please contact your OVC Victim Justice Program Specialist directly.

If you have any questions about the performance measures or OVC PMT, please e-mail the OVC PMT Help Desk ([ovcpmt@usdoj.gov](mailto:ovcpmt@usdoj.gov)) or call toll-free: 1-844-884-2503, Monday–Friday, 8:30 a.m.–5:30 p.m. EST.

## **POPULATION DEMOGRAPHICS**

*The purpose of the demographic data is to provide OVC with a description of the victim population that makes an application for compensation benefits in your state.*

**Application:** *A form received by the program from or on behalf of a victim or a family member. The definition does not include supplemental applications or requests for benefits but only the initial application filed.*

**Crime Victim or Victim of Crime:** *A person who has suffered physical, sexual, financial, or emotional harm as the result of the commission of a crime.*

1. Number of **people** for whom an application was made for victim compensation benefits during the reporting period.  
*This is a count of all persons who may receive benefits. Source of information is the application.*

2. Number of **victims** whose victimization is the basis for the application.  
*This is the number of victims the claims supported. Count each victim once. This number should be less than or equal to the number reported in Question 1. Source of information is the application.*

3. **Victim Demographics**

*The table below represents the race/ethnicity, gender, and age of each victim whose victimization is the basis for the application for compensation benefits received during the reporting period. **The total number of individuals in each demographic category should equal the number of victims reported in Question 2.** This data is used for statistical purposes to comply with Federal regulations.*

For each category, please indicate the **number of victims** (of those reported in Question 2) during the reporting period.

*All "0" entries must represent a **true value of zero**.*

*If no data is collected for a **category**, mark it as **Not Tracked**. This means that the state is not yet able to submit data in this category due to the need to update its data collection system but that efforts are underway to track data as requested. Enter "NT" in the category that was not tracked, and then count those individuals in the Not Tracked category.*

*If no data is collected for an **individual**, count that individual in the **Not Reported** category. This means that the state collects this data, but it was not provided by the person completing the application.*

**PERFORMANCE MEASURES**

*The performance indicators provide OVC with data that are tracked over time to examine trends and changes in compensation programs. The annually reported questions (at the end) will provide the context for the data provided.*

**Application:** *A form received by the program from or on behalf of a victim or a family member. The definition does not include supplemental applications or requests for benefits but only the initial application filed.*

**Crime Victim or Victim of Crime:** *A person who has suffered physical, sexual, financial, or emotional harm as the result of the commission of a crime.*

4. Based on your program's general procedure, indicate if:  
*Check the statement (Item A or B) that represents your state's process. Response will carry over to the next reporting period.*
- A. Only one application is usually counted per crime  
*(Represents one application per crime, regardless of the number of indirect victims or family members receiving benefits from that claim)*
- OR
- B. Victims and indirect victims generally count as separate applications  
*(Represents a separate application for each victim and indirect victim; more than one application can be counted per crime)*
5. Number of new applications **received** during the reporting period  
*"New" applications are a count of the initial applications received since the end of the last reporting period. If applications for payment of Sexual Assault Forensic Examinations are made through your regular compensation application process, include them here. If such applications are made through a process **separate** from your regular compensation application, **do not** include them here; instead, report them in Question 8.*
6. Number of applications **approved** during the reporting period  
*An approved application is one that meets the state's eligibility requirements/criteria, whether payments are subsequently made or not; this includes applications that are eligible for payment but there are no compensable expenses. If applications for payment of Sexual Assault Forensic Examinations are made through a process **separate** from your regular compensation application, **do not** include them here. **The number reported represents all applications that had a determination made during the reporting period, regardless of when the application was first received.***
7. Number of applications **denied/closed** (i.e., applications that were not approved) during the reporting period  
*If applications for payment of Sexual Assault Forensic Examinations are made through a process **separate** from your regular compensation application, **do not** include them here. **The number reported represents all applications that had a determination made during the reporting period, regardless of when the application was first received.***

**REASONS FOR DENIAL OR CLOSE STATUS:**

Select one reason per application. The response selected for each application should represent the key reason for the decision made for each application. The number reported represents all applications that had a determination made during the reporting period regardless of when the application was first received.*

**PAYMENT STATISTICS BY CRIME TYPE**

In the reporting tool, for each quarter, select all crime types for which data will be submitted.

For each crime type that is applicable to your state's payment activity:

- Indicate the total number of applications paid for that crime type.
- Indicate the total amount paid during the reporting period for each expense category by crime type. \$0 is a valid response.
- Include supplemental payments made during the reporting period.
- For "other," list other expense types and the amount paid that are not in the list provided.

And where applicable:

- Indicate whether the crime was related to domestic violence, bullying, hate crimes, elder abuse, or mass violence.

**Select the crime assigned to the application that determines eligibility for compensation benefits.**

*A decision tree will be provided (each submission period) that will ask the grantee to select all crime types for which data will be submitted for the reporting period.*

The following guidelines are provided:

**Enter data for all requested cells.** If no data then,

- **"NA"** (not applicable) as a response option is allowed to represent that the variable is not applicable to the state's program or crime type.
- **"NT"** (not tracked) as a response option is allowed to represent that the state's laws or regulations allow the type of service but are unable to collect this data during the reporting period due to the need to change the data collection system.
- **"0"** (zero) as a response option is allowed to represent a true value of "0." The state has the ability to collect and provides for that expense type; however, there is no data to submit for the reporting period.
